PoE

8x
90W

ecCLOUD

- 50 zařízení zdarma
- Logy
- Notifikace
- Provisioning
- Multisite
- LinqPath
- Privátní EC Cloud
- Captive portál
 - WiFi
 - Editor

The screenshot displays the ecCLOUD dashboard interface. On the left is a 'CLOUD MENU' sidebar with options: 'Choose a Site...', 'Dashboard', 'Devices', 'Activity', 'Manage' (with sub-items: 'Site management', 'User management', 'AuthPort', 'Notifications'). The main content area is divided into three sections: 'SYSTEM STATUS' with two circular gauges (34 Total Sites, 9 Total Devices) and a list of 'ACTIVITY' events (Device deleted, Channel Changed, Change Config, Device renamed, Device moved, Device moved). On the right is a 'STATUS MAP' showing a map of France with markers for London and Paris.

| Category | Total | Critical | Warning |
|----------|-------|----------|-----------|
| Sites | 34 | 5 | 0 |
| Devices | 9 | 1 online | 8 offline |

| Event | By | Time | Site |
|-----------------|----------------|------------|------------|
| Device deleted | Isma Noer Aras | 7 days ago | PSN_SITE_7 |
| Channel Changed | Info | 7 days ago | PSN_SITE_7 |
| Change Config | Completed | 7 days ago | PSN_SITE_7 |
| Device renamed | Isma Noer Aras | 7 days ago | PSN_SITE_8 |
| Device moved | Isma Noer Aras | 7 days ago | PSN_SITE_7 |
| Device moved | Isma Noer Aras | 7 days ago | PSN_SITE_8 |

ELITE

U klasického ethernetu nekončíme

- Napájení z baterií dobíjených solárním panelem
- Přenos po koaxiální infrastruktuře či kroucené dvoulince
- VDSL extender
- Switche do výbušného prostředí
- Přenos kontaktních stavů přes ethernet
- PoE 802.3bt – 95W
- Přenos RS (232/485) po LTE

Děkuji za pozornost
